

-- Always be in the loop and connected -- Take advantage of the vision and the prospective valuation of the markets and the industry --

SMARTCARDS TRENDS is a Newsletter dedicated to Smartcards and Smartobjects. It brings critical information on technologies and strategies to application designers and service providers in the fields of telecommunications, banking, e-government, health, transport and IT security.

IN EACH ISSUE:

- An exclusive report on a critical topic.
- A news event or announcement commented by major executives in the industry.
- An interview with a key person to highlight technical, industrial or economic trends.
- Short articles recapping financial and business news and product releases.
- A presentation of new concepts and project launches.
- A focus on specific applications and details of their implementation.
- An exclusive scorecard on the smartcard markets and its main trends.
